

Hi my name is Pat Spadacenta

An avid outdoorsman and a member of two area hunting clubs. Guilford sportsman and nutmeg beagle club. There's nothing more than I love to do on my free time as fishing and hunting. As so do my kids who I am bringing up to enjoy and respect the outdoors. Whether it is hunting or fishing or just shooting targets archery or firearms in a safe manner and taught so. My understanding is the state may consider more Sunday hunting besides archery. As a working person it allows that extra day for some outdoors and I am for that 100 percent. Also I think it's a good thought as to have a bear hunt in near future and would love to hunt Ct instead of giving my money to other states for a bear hunt. The population of bear is increasing as u know and between coyote and bear it is affecting the states deer population as to the predation of fawn deer. This past year I have not seen the usual amount of deer as in past. Thanks for any consideration. Sincerely. Pat Spadacenta
